

Some of you will have picked up already that the new registration process for Clubs will require them to pay at the point of registration using a credit or debit card. Until payment is made registration is not complete. Payment by Bacs is no longer possible.

The LTA have done this to streamline the process, reduce costs including the costs of processing Bacs payments, remove the need to chase late payers, and encourage venues to update their own administration by using systems like the Clubspark software for management of membership, bookings etc. This has been done after much discussion, consultation and advice including from the main board and consultants.
